

# [320] Regression 2

Department of Computer Sciences  
University of Wisconsin-Madison

# Pipelines

feature DataFrame

fruit	weight
apple	1
orange	2
apple	3

estimator

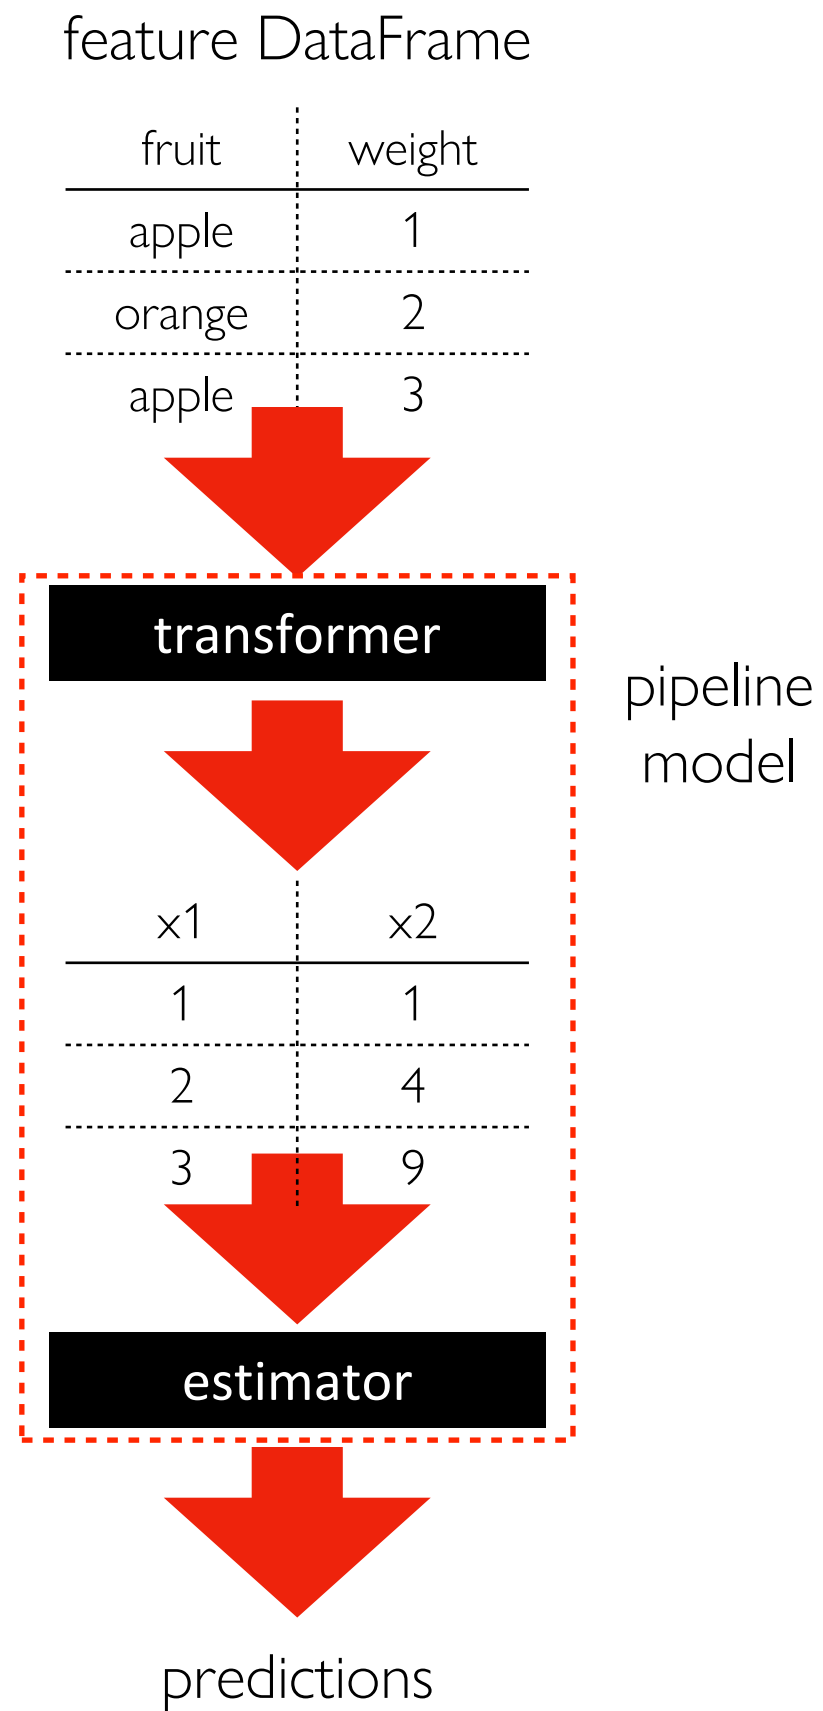

simple  
model

predictions

# Pipelines

**pipeline** applies transformers in **sequence** before estimation

# Pipelines

feature DataFrame

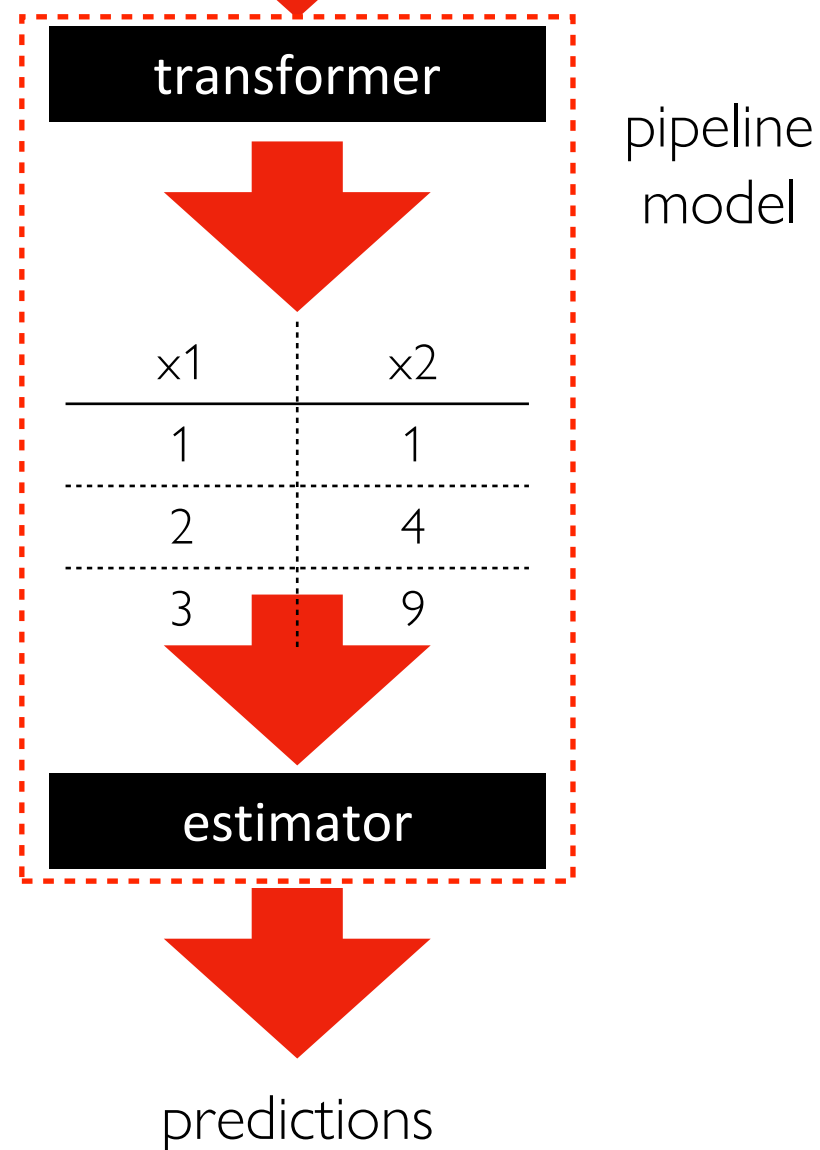

fruit	weight
apple	1
orange	2
apple	3

transformers:

- PolynomialFeatures
- OneHotEncoder
- StandardScaler
- KMeans
- PCA
- ColumnTransformer

estimators:

- LinearRegression
- LogisticRegression

# ColumnTransformer

**ColumnTransformer** applies one or more transformers in **parallel** before next step
